Sophie & Didier Guillon for VALMONT

VALMONT

People come here to enhance their beauty or erase the signs of a few years gone by... Some for the pleasure of taking time off alone, some to share intimate moments of bliss... But invariably people come here to provide their skins with a special treat thanks to the marvelous formulas offered by the opaline jars with golden caps. This is a place where time stops. Restlessness and turmoil are to be left behind.

Valmont shares this world of serenity and refinement with a Happy Few in an exclusive Club entirely dedicated to the achievement of Beauty: the V35, the Club of Prestigious Spas. Among its members are the Spas of some of the world's leading hotels along with the Spas By Valmont, which underline the desire of Sophie and Didier Guillon to re-establish the tradition of service excellence of luxury hotels.

Between two hands, good and able hands, the Valmont treatments are applied, massaged, gently touched onto the skin to intrinsically join with it. At the turn of a hallway is a painting. On the way to a treatment cabin stands a sculpture. In the lounge lies a ceramic... The setting is warm, quiet and luxurious, with light touches recalling the universe of the Magician of Time with noble materials and masterpieces of contemporary art.

Eventually, only 35 establishments will be able to take part in this elite of beauty. The number is a tribute to the 35 summits of the Swiss Alps which dominate above 4,000 meters. In Europe, Asia or America – in the city, by the sea or up in the mountains, the V35 Club already comprises of 13 mythical venues to discover: Spa Valmont of Les Aïreles in Courchevel, or at Le Meurice in Paris, Spa By Valmont in Hong Kong... Beauty knows absolutely no borders!

We invite you to discover these exclusive places : [www.valmont.com](http://www.valmont.com)
