Youth in a jar

Of all the age-defying products dermatologists recommend, moisturizers lead the pack. In 2016, Valmont breathed new life into the moisturizing ritual with a line of treatments highlighting valuable active ingredients and pleasant textures.

Having developed its expertise over more than 30 years, the Swiss brand is perpetuating its art of cutting-edge treatments, including rigorous selection of the finest ingredients for guaranteed effectiveness. You may have to shell out for some of them, but the amazing benefits are pretty enticing.

REVEALING THE SKIN'S PROMISE OF BEAUTY

Created more than 10 years ago, Valmont's Moisturizing Ritual has offered comfort and beauty to the most demanding skins for over a decade and this year they introduce the Moisturizing SerumulSION, an indispensable addition to enhance the performance of the other Moisturizing Ritual treatments.

Moisturizing SerumulSION stands out as a major innovation. It offers the strength of a serum, with its highly concentrated ingredients and smooth formula, combined with the comfort of a cream. Its velvety texture is a delight to the skin, it repels fine lines and soothes redness. Enriched with the expert cocktail of triple DNA and next-generation moisturizing ingredients, this treatment indulges the skin with a new and lasting form of hydration.

As a compound product, this treatment can be used in two different ways:

- Used alone, it reveals its full effectiveness by offering impeccable hydration and supreme comfort.
- Used together with other treatments in the Moisturizing line, it strengthens and enhances the performance of the products that make up the beauty ritual.

A moisturizing masterpiece available as of March 2016.

AWAKENING THE SKIN TO THE PLEASURES OF SOFTNESS

Priming With a Hydrating Fluid

Moisturizing Priming Mist

Exquisitely light, like a caress of air on the epidermis, Priming With a Fluid mist envelops the skin in a veil of freshness in preparation for the treatment it is about to receive. Used as a preliminary to the beauty routine or throughout the day to refresh the complexion, it elates the skin with a delicate fragrance and a moisturizing texture.

Moisturizing Booster

Extreme Plumping Serum

A few drops of the precious fluid is all it takes to jump start skin hydration. Used together with other treatments in the Valmont Moisturizing line, Moisturizing Booster provides a perfect foundation for sustained effectiveness. Featuring a deft hyaluronic acid complex, this hydration booster fills, plumps and revitalizes even the most dehydrated skin.

Moisturizing With A Cream

Rich Refreshing Cream

Smooth and velvety to delight the senses, the texture of Moisturizing With a Cream imbues the skin with unprecedented hydration. A bath of intense hydration, the treatment is applied as a day cream for exquisite, long-lasting comfort. Featuring a potent moisturizing complex, this cream gives the skin intense and hydration, all day long.

Moisturizing with a Mask

Instant Refreshing Mask

A cocoon of softness to envelop the skin and provide intense, superior and lasting hydration. Applied to the face in a fine layer, it plumps the epidermis in record time, while visibly reducing fine lines and smoothing the skin. With a single application, the complexion comes back to life, the epidermis is moistened and the skin is reborn. **i**
